CORPORATE GOVERNANCE REPORT

PART I - INFORMATION ON CAPITAL STRUCTURE, ORGANIZATION AND CORPORATE GOVERNANCE

A. SHAREHOLDER STRUCTURE

I. Capital structure

1. Capital structure, including indication of shares not admitted for trading, different categories of shares, rights and duties attached to the same, and the percentage of the capital represented by any such category.

Portucel's share capital is represented solely by ordinary shares, with a nominal value of 1 euro each, the same rights and duties being attached to all shares.

The share capital consists of a total of 767,500,000 shares, corresponding to an equal total nominal value in euros with all shares currently admitted for trading.

2. Restrictions on the transferability of shares, such as consent clauses for disposal, or limitations on ownership of shares.

Portucel has no restrictions of any kind on the transferability or ownership of its shares.

3. Number of own shares, corresponding percentage of share capital and percentage of voting rights which would correspond to own shares.

At 31/12/2013, Portucel held 49,622,497 own shares, corresponding to 6.47% of its share capital and 49,622 votes at the general meeting.

4. Significant agreements to which the company is party and which take effect, are amended or terminate in the event of a change in the control of the company as a result of a takeover bid, together with the respective effects, unless, due to its nature, disclosure of such agreements would be seriously detrimental to the company, except if the company is specifically required to disclose such information by other mandatory provision of law.

All the Company's borrowing, except for one contract, provides for early repayment in the event of a change in shareholder structure. Clauses of this type are included in 98% of the Company's total medium and long term borrowing. However, the Company considers that the contracts in question should not be disclosed as this would be prejudicial to its interests and offer no advantage to shareholders. The company considers that these clauses,

which are customary in loan contracts, were not included as assurances or protective measures for the eventuality of a change in control or changes in the composition of the board of directors.

5. Rules applicable to the renewal or revocation of defensive measures, in particular those providing for limits on the number of votes which can be held or cast by a single shareholder individually or in a concerted manner with other shareholders.

No defensive measures exist in the company providing for limits on the number of votes which can be held or cast by a single shareholder individually or in a concerted manner with other shareholders.

6. Shareholders' agreements known to the company or which might lead to restrictions on the transfer of securities or voting rights.

The company is not aware of the existence of any shareholders' agreement which might lead to restrictions on the transfer of securities or voting rights.

II. Holdings of shares and bonds

7. Identification of persons and organizations who, directly or indirectly, own qualifying holdings, detailing the percentage of the share capital and votes imputable and the respective grounds.

Special powers of the management board, in particular concerning resolutions to increase capital, indicating, with regard to these, the date on which they were granted, the period during which such powers may be exercised, the upper limit for the increase in share capital, shares already issued under the powers granted and the form taken by these powers.

Portucel's articles of association do not authorize the Board of Directors to resolve on increases in share capital.

10. Information on the existence of significant dealings of a commercial nature between qualifying shareholders and the company.

Any significantly relevant transactions such as those referred to above must first be submitted for clearance to the Audit Board, on the basis of the relevance criteria adopted by the Company for the purposes of prior assessment and intervention.

The Audit Board is therefore required to conduct a prior assessment of any transactions or operations between, on the one hand, the company or other Portucel Group companies and, on the other hand, the holders of qualifying holdings or other entities related in any way to the same, which (i) have a value equal to or greater than 1.5 million euros, or (ii) irrespective of their value, may, due to their nature, undermine transparency or the best interests of the company. The

Audit Board also receives periodic reports from the external auditor in which, in the course of its duties, the auditor checks the effectiveness and workings of internal control arrangements, reporting any shortcomings detected.

To this end, a service agreement was concluded in 2013 between SEMAPA – Sociedade de Investimentos e Gestão, SGPS, S.A. and Portucel,S.A, under the terms of Article 4 of Decree-Law 495/88 of 30 December, which was cleared by the Audit Board, after prior assessment of possible contingencies..

This contract establishes a remuneration system based on equitable criteria which do not create a bureaucratic burden for the parties in their ongoing relationship of collaboration and assistance, assuring maximum objectivity in the setting of remuneration and abiding by the rules applicable to commercial dealings between companies in the same Group.

We may point out that, in relation to this matter, the Corporate Governance Control Committee, which is responsible for overseeing the application of the company's corporate governance rules and its Code of Ethics, has powers, amongst other things, to pronounce on transactions between the company and its directors, and also between the company and its shareholders, when these are materially relevant.

B. CORPORATE BOARDS AND COMMITTEES

I. General meeting

a. Composition of the general meeting

11. Officers of the General Meeting and their term of office (starting and ending dates):

The Chairman of the General Meeting is Dr. Francisco Xavier Zea Mantero, and the office of secretary to the General Meeting is held by Dra. Rita Maria Pinheiro Ferreira.

The officers of the General Meeting were elected for a term of office starting on 01/01/2010 and ending on 31/12/2014,

except for the Chairman of the General meeting, elected on 10/04/2012, for a term of office ending on 31/12/2014.

b. Exercise of voting rights

12. Any restrictions on voting rights, such as limitations on the exercise of voting rights based on the ownership of a given number or percentage of shares, time limits for exercising voting rights, or systems for detaching voting rights from ownership rights:

The Company considers that there are no limits, in the company, to the exercise of voting rights by the respective shareholders.

The Company has no procedures in place which result in mismatching between the right to receive dividends or to subscribe new securities and the right attached to each ordinary share.

In order to exercise voting rights at general meetings, shareholders are required to hold, individually or in groups formed in accordance with the law, no less than one thousand shares, with one vote corresponding to a thousand shares. The Company considers that the principle of proportionality between voting rights and shareholder investment is respected. In addition, the Articles of Association make no provision for votes not to be counted above a given limit, and there are no categories of non-voting shares.

The Company also permits postal voting, and all the necessary procedures for this are explained in the notice of general meetings. Postal votes are only considered if the shareholders casting them provide evidence of the ownership of their shares, in accordance with the general rules. Postal votes are only considered when received by the day prior to the meeting, inclusive.

There are no arrangements in place for electronic voting, but the Company considers that this does not restrict the exercise of voting rights as no request has ever been made for such arrangements.

In order to attend general meetings shareholders are required to provide proof of their status and voting rights by the registration date, corresponding to 0 hours (GMT) on the 5th (fifth) trading day prior to the date of the General Meeting.

Shareholders wishing to attend the Company's General Meeting are required to make a declaration, by notice addressed, respectively, to the Chairman of the General Meeting and to the Financial Intermediary where they have their individual registration account, no later than the day prior to the registration date, in other words by the day prior to the 5th (fifth) trading day prior to the General Meeting.

By the end of the 5th (fifth) trading day prior to the General Meeting, the Financial Intermediary is required to send to the Chairman of the General Meeting information on the number of shares registered in the name of the shareholder of whose intention to attend the General Meeting it has been informed, indicating also the registration date of these shares; this notice may also be provided by email to the address indicated on the notice of meeting.

In addition, shareholders who, on a professional basis, hold shares in their own name but on behalf of clients and who wish to cast conflicting votes are required to submit to the Chairman of the General Meeting within the time limit indicated in the preceding paragraph, in addition, to the declaration of their intention to attend the General Meeting and the sending, by the respective Financial Intermediary of the information on the number of shares registered in their client's name, (i) identification of each client and the number of shares with voting rights to be exercised on their behalf, and also (ii) the specific voting instructions issued by each client for each item on the order of business.

Shareholders may also appoint a proxy to represent them at the General Meeting, and to this end may download a proxy form from the company's website (www.portucelsoporcel.com) or obtain a form on request from the head office.

Without prejudice to the rule on the unity of votes established in Article 385 of the Companies Code, any shareholder may appoint different proxies for shares it holds in different securities accounts.

Proxy forms for both individual and corporate shareholders must be delivered to the Chairman of the General Meeting, so as to be received by five days prior to the date of the General Meeting, and may also be sent by email.

There are no further restrictions on the exercise of voting rights, insofar as attendance of General Meetings and exercise of voting rights are not prejudiced by the transfer of shares subsequent to the Registration Date, and do not require the shares to be blocked from the Registration Date to the date of the General Meeting.

13. Indication of the maximum percentage of the voting rights which can be exercised by a single shareholder or by shareholders connected in any of the forms envisaged in Article 20.1.

There are no provisions to this effect in the Articles of Association.

14. Identification of shareholder resolutions which, under the Articles of Association, can only be adopted with a qualified majority, in addition to those provided for in law, and details of the majorities required.

The Company's Articles of Association contain no specific rules on a quorum for adoption of resolutions by the General meeting, meaning that the legal rules established in the Companies Code apply in full.

II. Management and supervision

a. Composition

15. Identification of the governance model adopted.

The Company's Articles of Association provide for a single-tier management model, with a Board of Directors comprising executive and non-executive members and an Audit Board, in accordance with Article 278.1 a) of the Companies Code.

16. Rules in the Articles of Association on procedural and material requirements applicable to the appointment and substitution of members, as the case may be, of the Board of Directors, the Executive Board of Directors and the General and Supervisory Board.

In accordance with the Articles of Association, the company's bodies comprise the general meeting, the board of directors, the audit board and a statutory auditor or firm of statutory auditors. The general meeting has powers to elect the directors, the members of the Audit Board and the statutory auditor or firm of statutory auditors.

The Board of Directors comprises three to seventeen members, elected by the general meeting of shareholders. Under the law and the Articles of Association, the directors are elected on the terms set out in the motion approved by the General Meeting.

The general meeting which elects the board of directors also designates its chairman, and may elect alternate directors up to the limit established in law. If the number of directors is not expressly fixed by the General Meeting, such number is deemed to correspond to the number of directors effectively elected.

However, the Articles of Association establish that a director may be elected individually if there are proposals subscribed and tabled by groups of shareholders, provided none of these groups holds shares representing more than twenty per cent and less than ten per cent of the share capital. No shareholder shall sign the proposal form for more than one list. Each proposal shall identify no less than electable persons. If there are several proposals subscribed by different shareholders or groups of shareholders, the lists shall be put jointly to the vote.

The articles of association also lay down that the Board of Directors may delegate the day-to-day management of the company to a single director or an executive board comprising three to nine members.

In the event of the temporary or definitive absence or impediment of the chairman of the board of directors, the board shall appoint another of its members to take his place.

However, in the event of the definitive absence, for any reason whatsoever, of the Director elected as Chairman with a profile appropriate to exercise of such duties, in accordance with the rule described above, the General Meeting is required hold a fresh election to appoint the Chairman of the Board of Directors.

The company's supervisory body is the Audit Board, comprising three full members and two alternate members, and a statutory auditor or firm of statutory auditors.

17. Composition, as the case may be, of the Board of Directors, the Executive Board of Directors and the General and Supervisory Board, detailing the provisions of the Articles of Association concerning the minimum and maximum number of directors, duration of term of office, number of full members, and the date when first appointed and the end of their terms of office for each member.

Portucel has a Board of Directors comprising eleven members – one Chairman and ten other Directors. Five of the members are executive directors and form an Executive Board, which was elected and whose powers are delegated by the Board of Directors, and the other four members are non-executive.

As stated above, the minimum number of directors is three and the maximum number is seventeen.

Identification of the members of the Board of Directors, indicating the date of first appointment and the end of their term of office:

18. Distinction between executive and non-executive members of the Board of Directors and, in relation to non-executive directors, identification of those who can be regarded as independent or, if applicable, identification of the independent members of the General and Supervisory Board.

- Pedro Mendonça de Queiroz Pereira (non-executive)
- José Alfredo de Almeida Honório (executive)
- Manuel Soares Ferreira Regalado (executive)
- Adriano Augusto da Silva Silveira (executive)
- António José Pereira Redondo (executive)
- José Fernando Morais Carreira de Araújo (executive)
- Luís Alberto Caldeira Deslandes (non-executive)
- Manuel Maria Pimenta Gil Mata (non-executive)
- Francisco José Melo e Castro Guedes (non-executive)
- José Miguel Pereira Gens Paredes (non-executive)
- Paulo Miguel Garcês Ventura (non-executive)

For the purposes of Article 414.5 of the Companies Code, we hereby disclose that the non-executive members of the Board of Directors identified above do not meet the requirements relating to the independence rules, and also for the purpose of Article 414-A.1, except for sub-paragraph b), three of the non-executive members of the Board of Directors, Mr. Pedro Mendonça de Queiroz Pereira, Dr. José Miguel Pereira Gens Paredes and Dr. Paulo Miguel Garcês Ventura do not meet the requirements of the incompatibility rules, namely with regard to sub-paragraph h), insofar as they hold directorships in five companies outside the Portucel Group.

18.1 The independence of the members of the General and Supervisory Board and members of the Audit Committee shall be assessed in accordance with the law in force. The other members of the Board of Directors are considered independent if the member is not associated with any specific group of interests in the company nor is under any circumstance likely to affect an exempt analysis or decision, particularly due to:

- a) **Having been an employee at the company or at a related or group company in the past three years;**
- b) **Having, in the past three years, provided services or established a significant commercial relationship with the company or a controlled or controlling company;**
- c) **Being the beneficiary of remuneration paid by the company or by a related or group company, other than the remuneration deriving from a directorship;**

d) Living with a life partner or a spouse, relative or any first degree next of kin and up to and including the third degree of collateral affinity of board members or natural persons that are direct and indirectly holders of qualifying holdings;

e) Being a qualifying shareholder or representative of a qualifying shareholder.

In accordance with the independence criteria indicated above, the non-executive members of the Portucel's Board of Directors cannot be considered independent, as two of them were re-elected for more than two terms of office and four of them act on behalf of shareholders owning more than 2% of the share capital. However, it is our view that the legal criteria are purely formal, and that the experience, track record and proven abilities of the Company's non-executive directors has permitted them to perform their duties with complete independence.

c. Powers and responsibilities

37. Description of the procedures and criteria applicable to the work of the supervisory body for the purposes of contracting additional services from the external auditor.

The choice of external auditor and the remuneration fixed for its services are validated in advance by the Audit Board.

In addition to aspects relating to the choice and remuneration of the external auditor, it should be noted that the Audit Board held joint meetings with the external auditor over the course of the year, and the two bodies are in constant and

direct contact, the Audit Board being the principal point of contact with the external auditor and the recipient of the relevant reports.

In the exercise of its supervisory duties, the Audit Board can also assess the work of the external auditor, and it has the possibility of proposing its dismissal with due cause to the General Meeting.

38. Other duties of the supervisory bodies and, if applicable, of the Committee for Financial Affairs.

In addition to the powers assigned to it by law, the Audit Board has the following responsibilities:

- To oversee the process of drafting and disclosure of financial information;
- To check the effectiveness of the internal control, internal audit and risk management system, having recourse to this end to cooperation from the Internal Control Committee, which will report to it regularly its findings, drawing attention to situations which need to be examined by the Audit Board;
- To approve activity plans in the field of risk management and to oversee their execution, and also to assess the recommendations resulting from audits and reviews of procedures;
- To ensure that an appropriate system is in place for internal control of risk management in the companies in which the Company owns shares or other holdings, monitoring whether their aims are effectively achieved;
- To approve internal audit programmes;
- To select the provider of internal audit services;
- To oversee the work of the statutory auditor;
- To assess and verify the independence of the statutory auditor, in particular when it renders additional services to the Company;

In the exercise of these duties, the Audit Board may also request and assess any management reports as it sees fit from time to time, and shall also have full access to the documentation produced by the company's auditors, with the possibility of requesting from them any information they deem necessary and ensuring appropriate arrangements within the company for the provision of audit services.

IV. Statutory auditor

39. Identification of the statutory audit firm and the partner and statutory auditor representing the same.

The company's Statutory Auditor is PricewaterhouseCoopers & Associados – SROC, Lda represented by António Alberto Henriques Assis or by César Abel Rodrigues Gonçalves, and the alternate statutory auditor is José Manuel Henriques Bernardo (ROC).

40. Indication of the consecutive number of years for which the statutory audit firm has held office in the company and/or group.

The Statutory Auditor indicated in item 39 above has held office in the company for 9 years.

In addition, the audit firm, in this case PriceWaterhouseCoopers, rotated the external auditor (the partner responsible for the auditing the Company's affairs) with effect as from 2010, and the previous auditor complied with the maximum period established in Recommendation IV.3.

41. Description of other services provided by the statutory auditor to the company.

Legal auditing services include financial audits of the Group's subsidiaries and foreign companies; for the Company these totalled 695,201 euros, and 48,145 euros for foreign subsidiaries. The Statutory Auditor also provided "fiscal consultancy" services, which in 2013 totalled 63,150 euros in Portugal and 12,000 euros in the Group's foreign subsidiaries, and consisted essentially of supporting services to assure compliance with fiscal obligations, in Portugal and abroad, and also surveys of situations in relation to operational business processes, which resulted in no consultancy on the redesign of existing practices, procedures or controls.

The vast majority of services indicated as "other reliability assurance services" relate to spending on the analysis and issuing of opinions on the bond issue effected by the Company during the period, together with opinions on requests for reimbursement of expenses under investment or research support programmes and on compliance with financial ratios, which opinions the Company is required to obtain under contracts it has signed, and not to services requested for any other purpose. The amount paid by the Company for these services in 2013 was 203,194 euros.

V. External auditor

42. Identification of the external auditor appointed for the purposes of Article 8 and the partner and statutory auditor representing such firm in the discharge of these duties, together with their respective registration number with the Securities Market Commission.

The legal accounts certificate and the audit report on the annual financial statements contained in the same is drawn up by PricewaterhouseCoopers & Associados – Sociedade de Revisores Oficiais de Contas, Lda, registered at the Securities Market Commission under no. 9077 and represented by António Alberto Henriques Assis, Statutory Auditor no. 815.

43. Indication of the consecutive number of years for which the external auditor and the respective partner and statutory auditor representing the same in the discharge of these duties has held office in the company and/or group.

The Company's current External Auditor was appointed as Sole Auditor in mid-April 2006 to complete the three-year term 2004-2006 and accordingly, on completing the audit work on the 2005 annual accounts it completed the term of office for which it had been appointed as alternate auditor. During this three-year term, the firm was represented by Ana Maria Ávila de Oliveira Lopes Bertão and Abdul Nasser Abdul Sattar.

However, in March 2007, it was appointed as the Company's statutory auditor for a 4-year term, starting in 2007 and ending in 2010, during which period it was represented by the same statutory auditors referred to above.

In May 2011, the General Meeting appointed the firm for a further four-year term currently underway, from 2011 to 2014, during which time the firm was represented by António Alberto Henriques Assis, Statutory Auditor.

In this context, and considering that the term of office has not yet ended, PriceWaterhouseCoopers has served as external auditor to Portucel and the other Group companies for nine years.

44. Policy on rotation of the external auditor and the respective partner and statutory auditor representing the same in the discharge of these duties, and the respective frequency of rotation.

The company's current External Auditor (PriceWaterhouseCoopers & Associados – Sociedade de Revisores Oficiais de Contas, Lda) was first appointed to this position in 2007 for the term of office from 2007 to 2010, which appointment was renewed in 2011 for the term of office currently underway, also of four years, meaning that it has yet to reach the upper limit for holding office of two successive four-year terms of the company officers.

In the course of its duties, the Audit Board conducts each year an overall assessment of the external auditor's performance, and of its independence and the professional relationship between the external auditor and the Company, and has the possibility of proposing the dismissal of the external auditor with due cause at duly convened General Meetings competent to adopt such a decision.

It is therefore the Company's view that the policy of rotation of the external auditor has been correctly applied with the proper frequency, as the quality of the work performed by the current audit firm and its store of experience in the company's affairs outweigh any drawbacks in retaining it. This is what was decided at the annual general meeting in

2011, when the Audit Board submitted to shareholders a proposal for retaining the External Auditor, on the grounds that the quality of the work performed by PricewaterhouseCoopers and the firm's accrued experience in the sectors in which Portucel operates outweighed any drawbacks of retaining it. In addition, in line with best international practice, rotation of the partner representing the external auditor was proposed and approved.

45. Indication of the body responsible for assessing the external auditor and the intervals at which this assessment is conducted.

Responsibility for assessing and monitoring the audit activities of the external auditor lies with the Audit Board. To this end, the Audit Board holds regular meetings with the statutory auditor and external auditor to assess all the accounting and financial information it deems necessary from time to time, and may request from them any information it deems necessary in order to monitor their work.

In addition, in the course of its duties, the Audit Board conducts each year an overall assessment of the external auditor's performance and of its independence, and enjoys unrestricted access to the documentation produced by the Company's auditors, enabling it to request from them any information it deems necessary; it is also the primary recipient of the final reports drawn up by the external auditors.

Merely by way of information, it may be noted that, under the respective rules of procedure, the Audit Board is directly and solely responsible for appointing, contracting or reappointing the Company's external auditors, and for confirming their qualifications and independence and approving their audit services and/or other services to be provided by the said external auditors or their associates.

46. Identification of work, other than audit work, carried out by the external auditor for the company and/or companies in a controlling relationship with it, and indication of the internal procedures for approval of the contracting of these services and indication of the reasons for contracting them.

As described in item 41, the relevant services other than auditing provided by the external auditor are included under "other reliability assurance services" and relate to spending on the analysis and issuing of opinions on the bond issue effected by the Company during the financial year. These services also relate to the issuing of opinions on requests for reimbursement of expenses under investment or research support programmes and on compliance with financial ratios, which opinions the Company is required to obtain under contracts it has signed, and not to services requested for any other purpose.

None of the services other than audit services contracted from the external auditor represented more than 30% of

the total value of the services rendered to the Company, as may be seen from the table in item 47. The Board of Directors considers that there are sufficient procedures to safeguard the independence of auditors through the analysis conducted by the Audit Board and the Internal Control Committee of the proposed work and the careful specification of this work when the auditors are contracted.

47. Indication of the annual remuneration paid by the company and/or controlled, controlling or group entities to the auditor and other individuals or organizations belonging to the same network, specifying the percentage relating to the following services:

In the financial year ended 31 December 2013, expenditure on legal auditing of accounts, audits and fiscal consultancy totalled 1,021,690 euros, breaking down as follows:

Figures in Euros	2013	%	2012	%
Statutory audit and audit services				
Statutory audit services	695,201	68%	412,531	46%
Financial audit of foreign subsidiaries	48,145	5%	114,194	22%
Fiscal consultancy services				
In Portugal	63,150	6%	100,150	11%
In foreign subsidiaries	12,000	1%	3,197	13%
Other reliability assurance services	203,194	20%	66,580	8%
Total	1,021,690	100%	696,652	100%

INTERNAL ORGANIZATION

VI. Articles of association

48. Rules applicable to amendment of the articles of association (Article 245-A.1 h).

The General Meeting has powers to resolve on any proposed amendments to the Articles of Association.

Proposed amendments to the Articles of Association must be tabled by the company's shareholders to be voted on at a General Meeting at which shareholders holding shares corresponding to no less than one third of the share capital must be present or represented.

A proposed amendment to the Articles of Association can only be approved by two thirds of the votes cast, at either the first or second call of the General Meeting.

VII. Notification of irregularities (whistleblowing)

49. Whistleblowing - procedures and policy

The company has "Regulations on the Reporting of Irregularities", governing the reporting by company employees of any irregularities allegedly committed within the company.

These regulations lay down the general duty to report alleged irregularities, requiring that such reports be made to the Audit Board and also providing for an alternative solu-

tion in the event of conflicts of interests on the part of the Audit Board with regard to the report in question.

The Audit Board, which may be assisted for these purposes by the Internal Control Committee, shall investigate all facts necessary for assessment of the alleged irregularity. This process ends with the report being filed or else submission to the Board of Directors or the Executive Board, depending on whether a company officer is implicated or not, of a proposal for application of the measures most appropriate in the light of the irregularity in question.

The regulations also contain other provisions designed to safeguard the confidentiality of disclosure and non-prejudicial treatment of the employee reporting the irregularity, as well as rules on providing information on the regulations throughout the company.

No irregular situation was reported in the course of 2013.

VIII. Internal control and risk management

50. People, bodies or committees responsible for internal audits and/or implementation of internal control systems.

The Internal Control Committee is responsible for identifying, assessing and monitoring risks, which are then managed and/or mitigated by various units within the Company. One of the most important aspects of the work of these committees is the forecasting of the consequences of occurrence of the risks identified below, making for greater effectiveness in the adopting of measures which can be implemented immediately when these circumstances occur.

51. Description of the lines of command in this area in relation to other bodies or committees; an organizational chart may be used to provide this information.

This information is provided in item 21 above, containing the organizational and functional charts showing the division of powers between the different corporate bodies.

52. Existence of other departments with responsibilities in the field of risk control.

The Company has implemented a system which assigns responsibility for internal control and risk management to the operational departments for each business area, and in addition to the Internal Control Committee there are other committees responsible for assessing and monitoring risks. These are: (i) the Asset Risks Analysis and Supervision Committee, which pronounces on the systems for preventing property risks in place in the Group; (ii) the Control and Corporate Governance Committee, that oversees and assesses matters relating to corporate governance and the Code of Ethics, as well as supervising internal procedures relating to conflicts of interests, in particular with regard to dealings between the Company and its shareholders or other stakeholders; (iii) the Sustainability Committee, which is responsible for implementing corporate and strategic policy on issues of social and environmental responsibilities, and on prevention of potential risks in these areas; (iv) the Ethics Committee, which assesses and oversees any situation arising with regard to compliance with the requirements of the Code of Ethics, and also plays a fundamental role in identifying irregularities which might undermine compliance with the Code of Ethics.

In addition, in view of the regulatory requirements to which the Company is subject, the Internal Control Committee, in conjunction with the Internal Audit Service and the External Auditors, has conducted assessment designed essentially to assure conformity with the objective policies and procedures instituted, to assure that financial reporting is reliable, to minimize the occurrence of fraud and also to identify the main business risks and events which may potentially generate risks, and also to assure that the critical risks identified are monitored and reduced to an acceptable level.

53. Identification of the main risks (economic, financial and legal) to which the company is exposed in the course of its business.

In the course of its business, the Group is exposed to a variety of economic, financial and legal risks, the most significant of which are detailed below:

1. Procurement of timber, and eucalyptus in particular, is subject to price variations and difficulties of supply which could have a significant impact on the production costs of pulp manufacturers;

2. Market prices of pulp and paper, which in the past have been markedly cyclical, significantly influence the Portucel Group's revenues and profitability;

3. Any reduction in demand for pulp and UWF paper, especially in EU and US markets, could have a significant impact on Group sales;

4. The Group is subject to the risk of default on the credit it grants to its customers, and has adopted a policy of hedging this risk within given levels by negotiating credit insurance from a specialist independent insurer. Sales not covered by credit insurance are subject to rules which assure they are made to suitably creditworthy customers;

5. Increased competition on pulp and paper markets could have a significant impact on prices and consequently on Group profitability;

6. Variations in the exchange rate between the euro and other currencies, notably the US dollar and sterling, could have an impact on Company business;

7. Variations in interest rates, and in particular in short terms rates, could have a significant impact on the Company's results;

8. There is also a liquidity risk which the Group manages in two ways. In the first place, it makes sure that its financial borrowing includes a large medium to long term component with maturities matched to the characteristics of the industry in which it operates.

In addition, the Group has contracted credit facilities from financial institutions; these are available at any time, with an upper limit which guarantees adequate liquidity.

9. In recent years, European Union legislation on environmental issues has become more restrictive, especially with regard to control of effluents.

The Portucel Group complies with all legal requirements, and has accordingly made sizeable investments in recent years. Although no significant legislative changes are foreseen in the near future, there is the possibility that the Group will have to make additional investments in this area, in order to comply with any new limits which may be approved.

10. The Portucel Group's ability to implement successfully the strategies defined depend on its ability to recruit and retain the best qualified and able staff for each position. Although the Group's human resources policy is geared to achieving this goal, it cannot preclude the possibility of future limitations in this area;

11. The Group's industrial plants are subject to the risks involved in any industrial activity, such as the risk of

accidents, breakdowns or natural disasters which could damage the Group's assets or cause temporary stoppages to the production process. This risks could likewise affect the Group's main customers and suppliers, which would have a significant impact on levels of profitability, if it were not possible to find alternative customers to maintain the level of sales or suppliers which allowed it to maintain the same cost structure;

12. The Portucel Group's operations are exposed to the risks related to forest fires, in particular: (i) destruction of present and future timber stocks; and (ii) the added costs of forestry operations and subsequent preparation of land for planting;
13. Energy sales account for an important part of Group's business, meaning that a significant change in electricity tariffs could have a significant impact on the Company's results;
14. The listed prices of shares in Portucel could experience volatility and be subject to fluctuations due to a range of factors. By way of example, these fluctuations could be caused by: (i) changes in investor expectations regarding the prospects for the sectors and markets in which the Group operates; (ii) announcements of technological innovations; (iii) launch of new products or services by the Group or its competitors; (iv) actual or expected variations in results; (v) changes in the financial estimates of securities analysts; (vi) any significant capital expenditure projects undertaken by the Group; (vii) any strategic partnerships or joint ventures in which the Group may participate; (viii) unfavourable economic prospects; (ix) changing conditions in securities markets; and (x) poor liquidity due to the existence of a controlling shareholder with approximately 76% of the share capital;
15. Portucel has taken on growing exposure to Mozambique country risk, as its investment project in that country has progressed.

The exposure to this risk means that the group takes this effect into account when assessing investments, in terms of scheduling, choice of suppliers/partners and geographical location, and taking precautions with regard to these steps, insofar as it is able to assume with reasonable certainty that they will not be constrained by the effects of this risk.

Many of the risk factors identified are beyond the Portucel Group's control, especially in the case of market factors which can have a fundamental and negative effect on the market price of the issuer's shares, irrespective of the Group's operational and financial performance.

54. Description of the process of identification, assessment, monitoring, control and management of risks.

The Company's strategic aim in the field of risk-taking is to reduce to a minimum the possibility of occurrence of risks involved at the different levels of the company's operations. In addition to the Audit Board which is responsible for overseeing the workings of the risk monitoring and management systems, the Company has various committees whose responsibilities include preventative action in this area: the Internal Control Committee, which has the mission of detecting and controlling relevant risks in the Company's operations, and the Asset Risks Analysis and Supervision Committee, which pronounces on the systems for preventing property risks in place in the Group.

The company's external auditor is PricewaterhouseCoopers. The company's External Auditor checks, in particular, the application of remuneration policies and systems, and the effectiveness and workings of internal control procedures through the information and documents provided by the company, and in particular by the Remuneration Committee and the Internal Control Committee. The respective findings are reported by the External Auditor to the Audit Board which then reports the shortcomings detected, if any.

55. Main elements of the internal control and risk management systems implemented in the company with regard to the process of disclosure of financial information (Article 245-A.1 m).

In accordance with the provisions of Article 248.6 of the Securities Code, as amended by Decree-Law 52/2006, of 15 March, issuers of securities are required to draw up and keep rigorously up to date a list of their staff, with or without employment contracts, who have regular or occasional access to privileged information.

Each member of staff listed has been informed of the Company's decision to include him or her and also of his or her legal duties and obligations, as well as the consequences of disclosure or abusive use of privileged information. Of the staff included on the list, only a small number is involved in the disclosure of privileged financial information.

All these employees and officers are also aware of the principles of professional ethics laid down in the Code of Ethics, contained in Annex I to this report, in particular with regard to duties of confidentiality and secrecy.

67. Composition of the remuneration committee, including identification of individuals or organizations contracted to provide support, and declaration regarding the independence of each member and adviser.

The composition of the Remuneration Committee:

- **Chairman:** José Gonçalo Maury
- **Members:** João Rodrigo Appleton Moreira Rato
Frederico José da Cunha Mendonça e Menezes

No individuals or organizations were contracted to provide support to the activity of the Remuneration Committee.

Regarding the independence of each member, the Company considers that they are independent, except for Mr. Frederico da Cunha Mendonça Menezes, who can no longer be considered independent since he was appointed, during 2013, member of the board of Sodim SGPS, S.A., a company which holds 51.12% of non-suspended voting rights in Semapa.

68. Expertise and experience of the members of the remuneration committee in the field of remuneration policy.

All the members of the Remuneration Committee have wide experience and knowledge concerning matters relating to the remuneration of company officers, in view of the offices held in the course of their professional careers. Special attention is drawn to the fact that the Chairman of the committee is the representative of a multinational specializing in human resources, and especially senior management recruitment.

III. Remuneration structure

69. Description of the remuneration policy for members of the management and supervisory bodies as referred to in Article 2 of Law no. 28/2009, of 19 June.

The remuneration policy for members of the company's management and supervisory bodies is set out in the Remuneration Policy Statement issued by the Remuneration Committee and contained in Annex II to this Report.

70. Information on how remuneration is structured in order to align the interests of members of the management body with the long term interests of the company, and on how it is based on performance assessment and discourages excessive risk-taking.

In addition to the details supplied in the text of the remuneration policy contained in the Annex referred to in the preceding item, it should be noted that the stability of the shareholder structure and of the composition of the Company's board of directors means that the interests of these officers are clearly compatible with those of the Company, as may be seen from a comparative analysis of the results presented in recent years and the remuneration paid.

71. Reference, if applicable to the existence of a variable remuneration component and information on any impact on this from performance assessments.

The remuneration of company officers includes a variable component which is directly related to responsibilities and contributions made to matters regarded as strategic to the Company's development.

72. Deferred payment of the variable component of remuneration, indicating the deferral period.

Payment of the variable component of remuneration is not deferred. The Company considers that given the stability of both the shareholder structure and the board of directors, it would not be possible to make opportunistic use of the directors' performance in the light of the profits for the period, as may be seen from the profits recorded over recent years and the close connection between these profits and directors' pay. Moreover, this deferral would only be effective for the next three years, given the stability of the company's profits, which have presented an annual variation since 2010 of less than 10%.

73. Criteria applied in allocating variable remuneration in shares and on the continued holding by executive directors of these shares, on any contracts concluded with regard to these shares, specifically hedging or transferring risk, the respective limits and the respective proportion represented of total annual remuneration.

Not applicable, given that variable remuneration does not take the form of stocks.

There are no rights to shares or share options, and the criteria underlying the variable components of directors' pay are those set out in the remuneration policy described above. The Company operates no share or option scheme, or any other share-based incentive scheme.

74. Criteria applied in allocating variable remuneration in options and indication of the deferral period.

Not applicable, given that variable remuneration does not take the form of options.

75. Main parameters and grounds for any annual bonus system and any other non-cash benefits.

The main parameters for allocating annual bonuses are based on the profits recorded by the Company for the period.

The company's results a relevant factor in setting the variable remuneration: not the results seen as an absolute value, but as viewed from a critical perspective in the light of what may be expected of a company of this size and characteristics, and in view of the actual market conditions.

In setting the variable component, other factors are also considered, resulting in the main from the general principles - market, specific duties, the state of the company's affairs. These factors are often more individual, relating to the specific position and performance of each director.

There are no non-cash benefits.

76. Main features of complementary or early retirement schemes for directors, and the date of approval by the general meeting for each individual.

There are no early retirement arrangements for directors.

Under the Portucel Pension Plan Regulations currently in force, Portucel's directors who are remunerated as such and who have served no less than one full term of office in accordance with the articles of association are entitled, on retirement or in the event of disability, if this occurs during their term of office, are entitled to a complementary monthly retirement or disability pension.

If the directors become disabled after the end of their term of office, they will only be entitled to the complementary disability pension if they qualify for the corresponding disability pension from the social security scheme in which they are registered and if they apply to the Company for the complementary pension.

This complementary pension is set on the basis of a formula which considers gross monthly remuneration and length of service; no less than 10 years' service is required and no more than 30 years' service will be considered.

Under the Soporcel Pension Plan in force during 2013, the directors benefiting from this plan are entitled to an old-age retirement pension as from the date they retire, in other words, when they reach the retirement age of 65 years; early retirement may be requested from the age of 60 onwards, provided the director has no less than 5 years' length of service.

A disability retirement pension equal to the national minimum wage at the date of retirement on grounds of disability will be granted to directors with length of service of no less than two and a half years and less than five years.

The old age retirement pension granted under this pension plan is calculated on the basis of a formula which considers primarily the length of service and pensionable salary, which is deemed to be the last gross remuneration paid in cash on a permanent basis 14 times a year.

Because of the specific characteristics of the Portucel Group pension plan, the General Meeting has not, to date, intervened in approving the main features concerning the specific rules applicable to the retirement of directors.

It should be noted here that Portucel was a state-owned company until 1991, with its business and procedures regulated by the special legislation applicable to this type of company, and during this period specific rules were approved on the retirement pensions of the directors.

Moreover, the complementary retirement pension schemes in force in the company are of course described in no. 27 of the Notes to the Consolidated Financial Statements, which are part of the Report and Accounts subject to approval by the General Meeting. At 31 December 2013, the value of liabilities allocated to post-employment benefits plans for two directors of the Portucel Group stood at 1,340,168 euros (at 31 December 2012: 2,439,412 euros for four directors). In individual terms, these figures break down as follows:

PART II – ASSESSMENT OF CORPORATE GOVERNANCE

1. IDENTIFICATION OF THE CORPORATE GOVERNANCE CODE ADOPTED

The Company has adopted by the Corporate Governance Code published by the Securities Market Commission (CMVM) in January 2013.

It is considered that the content of the mandatory information required by this code assures effective compliance with the recommendations, which can in turn contribute to strengthening the model adopted and assure the conformity of governance principles, and to improved performance and coordination of the duties of Portucel's company officers; this content is deemed appropriate to the Company's particular characteristics, without imposing any constraints on the workings of its governance structure.

2. ANALYSIS OF COMPLIANCE WITH THE CORPORATE GOVERNANCE CODE ADOPTED

Article 245-A o) requires a declaration on the adoption of the corporate governance code to which the company subscribes, specifying any divergence from the provisions of this code, and the respective reasons.

The information to be presented should include, for each recommendation:

- a) Information enabling the reader to assess whether the recommendation is complied with, or reference to the item in the report where this issue is dealt with in detail (chapter, title, item, page);
- b) Grounds for any instance of non-compliance or partial compliance;
- c) In the event of non-compliance or partial compliance, identification of any alternative arrangements adopted by the company to achieve the same objective as the recommendation.

Over the course of 2013, the Company continued to work at consolidating the Company's governance principles and practices, in line with the main regulatory developments in 2013, in particular the changes to the corporate governance rules resulting from the entry into force of CMVM Regulation 4/2013 and the CMVM Recommendations included in the 2013 CMVM Corporate Governance Code.

In its overall assessment of the degree of adoption of the recommendations, the Company has established that this degree is fairly high, whilst still acknowledging that a number of differences exist in relation to particular recommendations.

The company's current corporate governance model and principles accordingly comply with the binding legal rules on the single-tier governance model established in Article 278.1 a) of the Companies Code, and the CMVM Corporate Governance Recommendations quoted, in the version which took effect in January 2014, except for Recommendations II.1.7, II.2.5, II.3.1 and III.4, which are not complied with or are partially adopted for the reasons set out below.

The Company accordingly considers its degree of compliance to be fairly high, and significant progress has been made on the degree of adoption of the CMVM recommendations over recent periods. With the publication of the new CMVM Corporate Governance Code in 2013, the Company has adopted one more recommendation in relation to the previous year, as the new code has allowed the company to comply partially with recommendations which were previously not adopted.

It is also significant that, in a survey conducted in 2013 by the Portuguese Catholic University, commissioned by AEM – Associação de Empresas Eminentes de Valores Cotados no Mercado, the Company received an A rating in the Católica Lisbon/AEM Corporate Governance Index.

The table below shows the items in this Corporate Governance Report which describe the measures adopted by the Company to comply with the said CMVM Recommendations.

Explanation of Recommendations not adopted

Under Article 245-A of the Securities Code, and in keeping with the comply-or-explain principle underlying application of the Corporate Governance Code, the Company does not comply in full with the CMVM Recommendations in force at the date of issue (because of certain peculiarities and the structure adopted), and the Portucel Group has made the following judgement on substantially equivalent terms assessing the reasons for non-compliance:

Recommendation II.1.4

This recommendation states that "Except for small-sized companies, the Board of Directors and the General and Supervisory Board, depending on the model adopted,

shall create the necessary committees in order to ensure a competent and independent assessment of the performance of the executive directors and its own overall performance, as well as of other committees..."

With regard to the assessment of directors, this function is assured by the Chairman of the Board of Directors, the Audit Board, the Remuneration Committee and the shareholders.

In the Company's considered opinion, the assessment of committees by committees would be overly bureaucratic and would cause functions to be duplicated. The body creating each committee is responsible for overseeing it. This recommendation is therefore not adopted because Portucel does not have committees of this type, as it

considers that this would mean duplicating the responsibilities of other committees or boards and thereby causing the company to shoulder an additional bureaucratic burden and costs disproportionate to the possible advantages.

Recommendation II.1.7

The Company does not comply in full with the independence criterion for non-executive directors insofar as a situation of incompatibility exists in relation to some of its directors, two of whom have been re-elected for more than two terms of office and four of whom act on behalf of shareholders owning more than 2% of the company's capital. However, it considers that the independence criteria are purely formal and that the non-executive directors meet the necessary standards of good standing, experience and proven professional expertise which can effectively assure that there are no conflicts of interests between the interest and position of the shareholder and the Company. In addition, with regard to the composition of the Board of Directors, the single-tier governance model adopted by the Company does not require the inclusion of non-executive members who act with duties of oversight, in addition to their duties of management, which in turn means there is no legal requirement/independence criterion based on an appropriate proportion of independent members on the Board of Directors.

Recommendation II.2.5

The Company has implemented a system which locates responsibility for internal control and management risk in the functional departments for each business area, and the working plans of the internal audit department and the compliance department, and the resources allocated to these, are assessed by the Internal Control Committee, in conjunction with the Internal Audit Service, the External Auditors, the Corporate Governance Supervisory Committee and the Property Risks Analysis and Monitoring Committee. In addition, as may be seen in the organizational chart contained in item 21 of this Report, these services report directly to the Chairman of the Executive Board. However, irrespective of this direct relationship, the managed responsible for reporting lines (internal audit service) meets directly with the Audit Board when requested, providing all information which the Audit Board deems relevant.

Recommendation II.3.1

The recommendation II.3.1 states that "all members of the Remuneration Committee or equivalent shall be independent from the executive board members and include at least one member with knowledge and experience in matters of remuneration policy".

As explained in question 67 of part 1 of this report, the Company considers that the members of the Committee are independent, except for Mr. Frederico da Cunha Mendonça Menezes, who can no longer be considered independent since he was appointed, during 2013, member of the board of Sodim SGPS, S.A., a company which holds 51,12% of non-suspended voting rights in Semapa. However, in Portucel's

view, the fact that Mr. Frederico Menezes is a member of the Board of Sodim, does not affect his independent analysis and decision process, being perfectly able to exercise his duties with genuine independence in his assessment of the Company's directors.

Recommendation III.4

With regard to deferral of a significant portion of the variable remuneration, the Company considers that given the stability of both the shareholder structure and the board of directors, it makes sense not to apply this recommendation in the Company's current circumstances given that it would not be possible to make opportunistic use of the directors' performance in the light of the profits for the period, as may be seen from the profits recovered over recent years and the close connection between these profits and directors' pay. Moreover, this deferral would only be effective for the next three years, given the stability of the company's profits, which have presented an annual variation since 2010 of less than 10%.

PART III - OTHER DISCLOSURES

There are no other disclosures or additional information which would be relevant to an understanding of the governance model and practices adopted.
